

Supplement to **"Do I Have German Ancestry"** by Bill Beaudoin
Je Me Souviens - Vol. 41, No. 1 Jan - March 2018

In my research to verify my family story of German ancestors, I mentioned this during one of my days doing research at our library and our librarian, Jan Burkhart, suggested that I check out our German section for information on this subject. We have numerous books in this section and I found one which was written in the 1980s' titled *"The Hessians of Québec - German Auxiliary Soldiers of the American Revolution Remaining in Canada"* by Johannes Helmut Merz. I also found another book in our biographical section titled *"Germany Military Settlers in Canada – after the American Revolution"* , by Virginia Easley Demarce. These two books appeared to be the answer to finding my German roots but also required me to refresh my history of the American Revolutionary War and the participation of Hessian troops.

From a register totaling over 4,000 entries in Metz's book and over 2,000 entries in Demarce's book, I have compiled a list of over 550 marriages performed in Québec during this time period. I have also included in this compilation 100 other marriages uncovered in our library between German nationals and French-Canadians. With all this information, I was still unable to find any link to my German ancestry. I am writing this article to invite anyone with further information or thoughts on this subject to submit same to our society, The American-French Genealogical Society. Send them to JMSEditor@afgs.org.

This document contains the above mentioned list of over 550 marriages performed in Quebec. They are listed alphabetically by male and then by female.
